

How dare you try and take away something that belongs to all of us taxpayers. You want to take away XM Radio and then let something like the gays and lisbans have a spot on the airwaves. Don't you think that XM Radio deserves just as much space on the airwaves as the gays and lisbans? I think it's time we get someone in these positions that have a grasp on reality. I hope you are smart enough to realize that XM Radio is better suited for the general public and then stop this nonsense about shutting it down.DO THE RIGHT THING.

Sincerely,
John Worra
